CONTENTS OF HEREDITAS, VOLUME 115:1–3 (1991)

79 Abstracts of papers presented at Genetics and Evolution, the fourteenth meeting of the Scandinavian Association of Geneticists

183 ÁRNASON, Ú., SPILLIAERT, R., PÁLSDÓTTIR, Á. and ÁRNASON, A.: Molecular identification of hybrids between the two largest whale species, the blue whale (*Balaenoptera musculus*) and the fin whale (*B. physalus*)

31 ARRIETA, M. I., MARTINEZ, B., CRIADO, B., SALAZAR, L., LOBATO, N. and LOSTAO, C. M.: Fluctuating asymmetry in quantitative dermatoglyphic traits: twins and singletons

115 ASHRAF, M. and MCNEILLY, T.: A potential source of variation for salt tolerance in spring wheat

169 BREEN, M. and GILL, J. J. B.: The chromosomes of two horse × zebra hybrids; *E. caballus* × *E. grevyi* and *E. burchelli*

275 DUBEY, D. D. and RAMAN, R.: Mammalian sex chromosomes. IV. Replication heterogeneity in the late replicating facultative- and constitutive-heterochromatic regions in the X chromosomes of the mole rats, *Bandicota bengalensis* and *Nesokia indica*

133 DUNFORD, R. and ROGNER, U. C.: Construction of yeast artificial chromosomes containing barley DNA and the identification of clones carrying copies of the repeated element BIS-1

25 ENGQVIST, G. M. and BECKER, H. C.: Relative importance of genetic parameters for selecting between oilseed rape crosses

9 GARCÍA-SAGREDO, J. M. and MONTEAGUDO, J. L.: Effect of low-level pulsed electromagnetic fields on human chromosomes in vitro: analysis of chromosomal aberrations

283 GUBENKO, I. S., SUBBOTA, R. P. and SEMESHIN, V. F.: Unusual *Drosophila virilis* stress-puff at 20CD: cytological localization of a heat sensitive locus and some peculiarities of the heat shock response

191 GUSTAVSSON, H.-O., RASK, L. and JOSEFSSON, L.-G.: Transcription in vitro of a napin gene, *napA*, from *Brassica napus* with a HeLa cell nuclear extract

163 HU, G., KOFOID, K. D. and LIANG, G. H.: An unstable mutation for pigmentation in kernels of 'Calico' sorghum

195 JAGETIA, G. C.: Effect of chlorpromazine hydrochloride on the formation of micronuclei in the bone marrow of mice exposed to gamme radiation

291 JANKUN, M., RAB, P. and VUORINEN, J.: A karyotype study of vendace, *Coregonus albula* (Pisces, Coregoninae)

295 JOHANNESSON, T., HOLMQVIST, D., MARTINSSON, T. and WAHLSTRÖM, J.: An improved technique for chromosome preparations from human lymphocytes

51 KYRIAKOPOULOU-SKLAVOUNOU, P., SJÖGREN, P. and JANSSON, H.: Discordant genetic and morphological differentiation between three *Rana ridibunda* populations from northern Greece

69 LATOS-BIELENSKA, A., KLETT, C., JUST, W. and HAMEISTER, H.: Refinement of localization of the human genes for myeloperoxidase (MPO), protein kinase C, α polypeptide, PRKCA, and the DNA fragment D17S21 on chromosome 17q

221 LEWANDOWSKI, A., and MEJNARTOWICZ, L.: Levels and patterns of allozyme variation in some European larch (*Larix decidua*) populations

127 LINDE-LAURSEN, I.: Barley × rye hybrids eliminating accessory chromosomes of rye

267 LINNELL, J. C. D. and CROSS, T. F.: The biochemical systematics of red and sika deer (genus *Cervus*) in Ireland

213 LIU, D. and JIANG, W.: Effects of Al^{3+} on the nucleolus in root tip cells of *Allium cepa*

227 LUNDQVIST, U., MEYER, J. and LUNDQVIST, A.: Mutagen specificity for 71 lines resistant to barley powdery mildew race D1 and isolated in four highbred barley varieties
241 LUNDQVIST, U. and LUNDQVIST, A.: Dominant resistance to barley powdery mildew race D1, isolated after mutagen treatments in four highbred barley varieties
145 MATĚNA, J.: Chromosomal polymorphism in a *Chironomus plumosus* (L.) (Diptera:Chironomidae) population from a fish pond in Southern Bohemia: a long term study
121 NILSSON, N.-O. and PELGER, S.: The relationship between natural variation in chiasma frequencies and recombination frequencies in barley
255 OLSEN, F. L.: Isolation and cultivation of embryogenic microspores from barley (*Hordeum vulgare* L.)
109 PAPESCHI, A. G.: DNA content and heterochromatin variation in species of *Belostoma* (Heteroptera, Belostomatidae)
207 PEDRAZZINI, E. and SLAVUTSKY, I.: Ag-NOR staining and satellite association in lymphoproliferative disorders
177 POLI, M. A. and ANTONINI, A. G.: Genetic structure of milk proteins in Argentinian Holstein and Argentinian Creole cattle
37 QUEIROZ, A., MELLO-SAMPAYO, T. and VIEGAS, W. S.: Identification of low temperature stabilizing genes, controlling chromosome synapsis or recombination, in short arms of chromosomes from the homoeologous group 5 or *Triticum aestivum*
73 RANGEL-FIGUEIREDO, T. and IANNUZZI, L.: A cattle breed close to 58 diploid number due to a high frequency of rob(1; 29)
201 RØED, K. H., EIKELMANN, I. M. H., JACOBSEN, M. and PEDERSEN, Ø.: Chromosome aberrations in Norwegian reindeer calves exposed to fallout from the Chernobyl accident
139 RUBEŠ, J., HOŘÍNOVÁ, Z., GUSTAVSSON, I., BORKOVEC, L. and URBANOVÁ, J.: Somatic chromosome mutations and morphological abnormalities in sperms of boars
13 SÄLL, T.: Genetic control of recombination in barley. III. Recombination between the hordein loci in three different genotypes
43 SCHERTHAN, H.: Characterisation of a tandem repetitive sequence cloned from the deer *Capreolus capreolus* and its chromosomal localisation in two muntjac species
63 THOMSEN, P. D., BOSMA, A. A., KAUFMANN, U. and HARBITZ, I.: The porcine *PGD* gene is preferentially lost from chromosome 6 in pig × rodent somatic cell hybrids
17 TOMIUK, J., HALES, D. F., WÖHRMANN, K. and MORRIS, D.: Genotypic variation and structure in Australian populations of the aphid *Schoutedenia lutea*
153 VAHALA, T., ERIKSSON, T. and ENGSTRÖM, P.: Genetic variability in basket willow (*Salix viminalis*) detected by hybridization to a bacteriophage M13 DNA probe
99 WALKER, L. I., SPOTORNO, A. E. and SANS, J.: Genome size variation and its phenotypic consequences in *Phyllotis* rodents
1 ZHANG, Q., SAGHAI MAROOF, M. A. and WEBSTER, R. K.: Spatial and temporal patterns of associations between quantitative characters and resistance to scald in barley
